<https://joditivisphotography.pixieset.com/> Fort Collins, CO  
Photographed a variety of events.

## Projects

**U-Travel** | <https://u-travel-dt.herokuapp.com/> | <https://github.com/Nicole103/U-Travel>

**Project Summary:** U-Travel is a MERN app that allows users a fun way to plan for vacation. Search flights and hotels, save a packing list, add all trip expenses and keep track of how much they have saved.

**Personal Responsibilities:** Implemented user authentication using Passport.js, as well as ReactStrap to create a fun, dynamic, and cohesive UI/UX.

**Tools/Languages used:** HTML5, CSS3, ReactStrap, React.js, JavaScript, Passport.js, Express, Node JS MongoDB, Mongoose, Weather API, Amadeus API

**Restaurant Finder** | <https://best-restaurant.herokuapp.com/> | <https://github.com/joditivis/Project2>

**Project Summary:** An 11 question survey takes in a user's location, cravings, dietary restrictions, favorites and more, to help find a restaurant in their area or town they are visiting.

**Personal Responsibilities:** Web page UI/UX

**Tools/Languages used:** HTML5, CSS3, JavaScript, jQuery, Node JS, Express, Handlebars, MySQL, and Sequelize ORM

**Gif-ting** | [stacyholtz6.github.io/Gif-ting/](https://stacyholtz6.github.io/Gif-ting/) | [github.com/joditivis/Gif-ting](https://github.com/joditivis/Gif-ting)

**Project Summary:** Gif-ting allows users to improve on holiday shopping organization and gives users gif(t) ideas for each person they are shopping for.

**Personal Responsibilities:** Using the GIPHY API, generated a GIF based on each person's word description, as well as a gift generator to generate gift ideas relevant to each person's keyword.

**Tools/Languages used:** HTML5, CSS3, Bootstrap, JavaScript, jQuery, Slick Carousel, Firebase, Etsy API, GIPHY API

## Education

**Bootcamp Certificate:** University of Denver | Denver, CO | September 2019 - March 2020

A six-month intensive web development program focused on gaining technical skills in the most up-to-date developer languages.
